MEMORANDUM FOR Army Reserve Major Subordinate Commands

SUBJECT: Post Deployment Health Reassessment (PDHRA) Program

1. References:

- a. Memorandum, VCSA, 18 Jun 07, subject: Post Deployment Health Reassessment (PDHRA).
- b. DoD Instruction 6490.03, 11 Aug 06, subject: Deployment Health.
- c. Memorandum, HQ USARC, AFRC-MD, 21 Apr 06, subject: Post Deployment Health Reassessment (PDHRA) Program for Army Reserve Soldiers.
- d. OTSG/MEDCOM Policy Memo 06-005, HQ USAMEDCOM, MCCS, 7 Mar 06, subject: OTSG/MEDCOM Implementation Plan for Active Component Post-Deployment Health Reassessment Program (PDHRA).
- e. Memorandum, Secretary of the Army and CSA, 23 Jan 06, subject: Post-Deployment Health Reassessment.

2. Purpose. As a commander's program, the PDHRA Program reflects the Army and Army Reserve commitment to our Soldiers and their Families for full and total access to care and services they deserve. This Program also confirms our contract with the American people that we are committed to the well-being of every Soldier and Family. The compliance goal is 100 percent. Leaders at all levels will take aggressive action when compliance rates fall below 85 percent. Our Soldiers deserve nothing less. Commanders will ensure all their Soldiers complete the PDHRA within 90-180 days upon redeployment from theater. PDHRA will be placed on the training schedule to ensure screenings take place.

3. Background. VCSA memorandum dated June 18, 2007 directs that organizations will take aggressive action when compliance rates fall below 85 percent. Currently, the AR is only 73 percent compliant and some RRCs and DRCs are significantly below the Army standard. Additionally, previous DoD guidance and the Army Reserve PDHRA Implementation Plan state that Tier 1 (those redeployed after 10 Mar 05) are designated as the mandatory eligible population, and Tier 2 (those redeployed prior to 10 Mar 05) are in the voluntary population. However, the fact is the Army Reserve has seen several serious incidents occur from the Tier 2 population. Commanders will ensure both Tier 1 and Tier 2 Soldiers' potential medical problems from deployment are screened and addressed.

SUBJECT: Post Deployment Health Reassessment (PDHRA) Program

4. Applicability. The demands of current military operations have placed a significant amount of stress on our military force. Soldiers are the most important element of our force. Post Deployment stress is occurring upon reintegration into civilian life. It is imperative that commanders ensure that Soldiers complete the PDHRA within 90-180 days post redeployment.

5. Responsibilities. Effective immediately, commanders will ensure the PDHRA compliance rates improve dramatically, and that the PDHRA is conducted on both Tier 1 and Tier 2 Soldiers. You have been provided a PDHRA coordinator to assist your commands with obtaining the overall goal (Encl).

6. For additional information, contact COL Corinne Ritter, Army Reserve Deputy Surgeon, at 703-601-1369.
